The members of the team are enthusiastic base ball players who have been successful in every game played this season except the one played last Sunday in which they suffered defeat at the hands of the Central team by a score of 13 to 8. They deserve encouragement and if the citizens will give them the aid they deserve Silver City will soon have the strongest nine in the Territory. When you are solicited to help the boys along do so and you will be able to witness some good games of ball on the Silver City grounds this season.

Arbor Day.
 Arbor Day was generally, though quietly, observed by the citizens and business men of Silver City last Friday. The business houses were closed at one o'clock and the afternoon was devoted to recreation. The public schools took a holiday and the teachers and pupils devoted themselves to cleaning up the school grounds and planting trees. The trees selected for planting, as being the best adapted to this soil and climate, were of the cottonwood variety. Next little christening ceremonies were held upon the planting of each tree. The graduating class decided that the name of Washington Irving would add inspiration and thrift to its tree and it was so named; Miss Koehler's room, 7th grade, gave the name of Ethna Allen to its tree; Miss Lizzie Black's room called its tree Christopher Columbus; the departments presided over by Miss Jettie Gaddis, Miss Eekles and Mary Agne, christened their trees after the members of the board of education respectively as follows: R. L. Powell, Judge Bennett and Wm. Brahm.

Bill & Stevens are now working a force of men on the Miss Granda mine at Pinos Altos. They are sinking two shafts, twenty feet apart, to the main ore body. The vein is from two to three feet in thickness, is easily mined, and carries about \$20 in gold per ton. The ore is free milling and will be treated at the Bell & Stevens mill.

N. Bell, of Pinos Altos, had four gold bricks on exhibition in this city one week ago last Saturday which were worth \$12,000. He also has 120 tons of concentrates, from which these bricks were extracted, that will run \$35 per ton. In addition to the 120 tons of concentrates, from which the gold bricks were made, Mr. Bell also has 50 tons more which are equally as valuable, which are now being shipped for treatment.

The Eberle mine at Mogollon is employing a force of five men on tunneling and development work. F. X. Eberle, the owner of the property, says he intends soon to erect a fine mill for the treatment of the product of the mine. There are several hundred tons of ore now on the dump ready for treatment.

Work is progressing on the smelter at this place, and supplies are being received daily and the plant will open for a successful run some time during the latter part of the month. The company intended to start the works about the 15th, but upon close examination of the furnace it was thought unwise to blow in until they could procure a new one to take its place. They ordered a new furnace and expect its arrival in a few days.

The Newcomb mill, at White Signal, is nearing completion.

F. R. Brown, manager of the Deep Down mine at Mogollon, was in town last week for a few days, but has returned to camp. New machinery has been ordered for the mill which is now fitted up with Blake crushers, stamps and vanners. A 30 ton experimental run of ore has been made and the results are most satisfactory. The mill is now temporarily shut down until property is further tested and new machinery is put up. One week ago last Sunday evening a large body of high grade ore was struck on the 40 foot level. The vein runs from 9 to 30 feet wide and has a pay streak from 8 to 10 feet wide. Much of the ore runs \$15 per ton and some up into the hundreds of dollars. Neil Macphatter and J. H. Kimball, members of the company, were here last week and expressed themselves as being greatly pleased with the manner in which the property is showing up. The works will be greatly enlarged and extended. The present cost of taking out ore is \$1.10 per ton.

Some miserable fellow stole Mrs. R. P. Barnes' bicycle last Sunday night. It was a Misses Crescent No. 5, 1895 model, equipped with 35 inch wheels, Morgan & Wright tires, brake, Garford saddle, goose neck saddle post, and leather lining in and guard. Finder please return to this office and receive reward.

SIGNAL TRIUMPH WON.
 By Dr. Price's Cream Baking Powder. Two signal triumphs have been achieved by Dr. Price's Cream Baking Powder. First it received Highest Award and Diploma at the World's Columbian Exposition in Chicago, 1893. It secured Highest Award and Gold Medal at the California Midwinter Fair of 1894. At both Fairs it surpassed all competitors in every respect. The award, in each instance, was for strength, leavening power, perfect purity and general excellence. It was sustained by the unanimous vote of the judges.

The victory at Chicago establishes the supremacy of Dr. Price's as "The Foremost Baking Powder in the World." The triumph at San Francisco confirms and emphasizes it.
